

ECG Interpretation Workshop

Paramedic Edition: 8 October 2025; 10 June 2026

Embark on a dynamic educational journey that balances profound theory with thrilling hands-on experiences. Our accomplished academic experts will guide you through the theory sessions in the morning, whereas you'll step into a realm of innovation and realism in our state-of-the-art BLIS facility (Blended Learning Interactive Simulation) during the afternoon practical sessions, where learning truly comes to life.

Course Content:

- Anatomy and physiology
- ECG principles and settings
- Leads placement & sinus rhythm
- Atrial, ventricular & conduction abnormalities
- Cardiac ischaemia
- Systematic approach to rhythm recognition
- Clinical case studies and practice

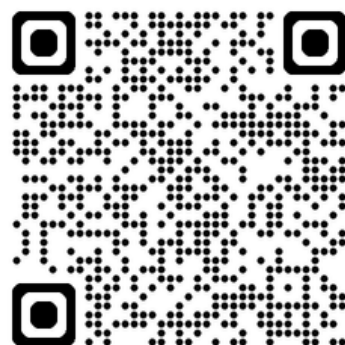

Price: £150 for a one day course (9-17)

all intakes will be held at Bournemouth University,
in Lansdowne Campus, Bournemouth
